Now Online: Travel Directors Network

CHICAGO—The International Network of Travel Directors (INTD), which has tripled its membership within six months, is the hospitality industry's only network that connects meeting and event planners, incentive houses, destination management and tour companies directly to travel directors, logistics staff and tour guides 24 hours a day, said Alison Ray, CMP, executive director.

"We are so pleased that hundreds of travel directors and tour guides across the globe are turning to our site to showcase their professional experience, to profile themselves, and to reach their target audience," Ray said, explaining that the organization is centered around the website, www.intdonline.com.

www.intdonline.com

As of November 2008, more than 400 travel directors worldwide were registered with INTD and available in the online database. The site offers free and platinum-level memberships to travel directors and tour guides and invites them to post their professional profiles online. ■

MPI Hires COO, Creates Executive Advisory Council

DALLAS—Meeting Professionals International (MPI) has announced the appointment of its new chief operating officer, Trey Feiler, said Bruce

Feiler

MacMillan, MPI president/CEO. "His diverse background in international business and his ability to analyze and define non-traditional business mod-
